

## ILLUMINATION OF PIER BEAUTIFUL

Raleigh Square in Blaze of Light  
When Current Is  
Turned On.

### BRIEF FORMAL EXERCISES

Engineers Deliver Their Splendid  
Work to Government  
Representative.

JAMESTOWN EXPOSITION  
GROUNDS, September 14.—Proclaimed  
by the most magnificent electric and  
pyrotechnic display ever witnessed in  
the South, and strains from brass  
bands, strident instruments and the  
fife, as well as by oratory, the great  
Government Pier at the Jamestown Ex-  
position, erected at a cost of something  
over \$100,000, was formally dedicated  
this evening.

The whole exposition, especially Ra-  
leigh Square, from which projects the  
great pier, and its surroundings was  
in a blaze of glory. Those who ob-  
served the display will never forget it.  
Only Niagara has produced more bril-  
liant, but never has a more artistic  
electric and pyrotechnic effect been  
produced.

Thousands—one of the biggest night  
crowds that has visited the exposition—  
were present for the dedication. It  
would have been worth the while of  
other thousands to have come for it, to  
travel even a hundred miles for this  
and nothing more.

But there will be nightly scenes of  
great brilliancy from this time, now  
that the pier is completed, until the  
curtain has been finally run down on  
the great show, and there will be  
other occasions perhaps when the  
scene shall be equally as brilliant as  
it was to-night.

Expansive Raleigh Square and  
broad Willoughby Boulevard, in front  
of the State Buildings, afforded ex-  
cellent viewpoints for the display. Ar-  
on these thoroughfares the multitude  
was congregated. The fireworks went  
off from the end of the great pier, and  
from floats in John Smith Basin, be-  
tween the two arms of it. A reproduc-  
tion in fire, high in the air above the  
basin, that excited the wonderment  
and enthusiasm of the crowds, was  
the battle between the Virginia and  
Monitor.

At 8:30 o'clock this afternoon the  
Mexican National Band, the organiza-  
tion sent to the exposition by the  
President of Mexico, and which has  
produced much of the best music heard  
at the fair, commenced to play on the  
lofty concrete arch connecting the off-  
shore ends of the two arms of the pier,  
and at the same time Phinney's United  
States Band commenced to play on the  
bandstand on Raleigh Square. The  
playing of the Mexican National con-  
tinued until 7 o'clock, and that of  
Phinney's until 8:30.

A few minutes before 7 o'clock E. W.  
Gaylord, representing Schofield & Co.,  
the contracting builders of the pier,  
turned over to F. L. Wheeler, United  
States engineer in charge, who in  
turn delivered it to the exposition  
management. President Tucker re-  
ceived it on behalf of the exposition.  
Brief speeches marked these cere-  
monies.

The boom of a cannon announced  
the conclusion of these ceremonies,  
and then the illumination of the pier  
was commenced. Slowly the lights  
were turned on until the illumination  
was complete in all of its magnifi-  
cence. As the illumination was in pro-  
gress, the Mexican National and  
Phinney's United States Bands played  
the "Star-Spangled Banner." The  
completion of the illumination of the  
pier was acclaimed with a hurrah, in  
which it seemed that the waves of  
Hampton Roads joined. Many watched  
the spectacle until the lights of the  
exposition were turned out for the  
night.

The completion of the pier and its  
illumination at night adds vastly to  
the attractiveness of an already great  
and attractive exposition. If there is  
one person in Virginia or anywhere  
else that has not seen the exposition  
for any fault they may have found  
with it that fault no longer exists.

were here to celebrate it. Central fig-  
ures in the celebration were Governor  
Charles S. Dineen and Dr. Edmund J.  
James, president of the University of  
Illinois.

Shortly after 11 o'clock Governor and  
Mrs. Dineen, accompanied by a detail  
of the Twelfth United States Cavalry  
from the Illinois State Building to  
the Auditorium, where the formal  
exercises occurred.

Hon. G. Tuxhorn, vice-president  
of the Illinois Exposition Commission,  
directed the proceedings as presiding  
officer. He introduced President Tucker  
as the first speaker. The head of the  
exposition warmly welcomed the Illi-  
nois representatives to Jamestown and  
Virginia. Governor Dineen fittingly  
responded.

The orator of the day was Dr. James  
H. H. Holmes, a brilliant orator, and  
dwelt mainly on the historic relations  
between Virginia and Jamestown.  
The exercises were held in the Auditorium  
over the official Illinois party was  
tendered a luncheon at the Swiss Alps  
village. A parade of the exposition  
society, headed by Governor Dineen  
later in the afternoon, and this  
evening the Illinois commissioners, ten-  
dered Governor and Mrs. Dineen a re-  
ception at the Illinois Building. This  
was largely attended by many people  
of distinction. The Illinois Building  
was handsomely decorated and illu-  
minated for the occasion.

### WASHINGTON NEWSPAPERMAN VISITING EXPOSITION

[Special to The Times-Dispatch.]  
JAMESTOWN EXPOSITION

seventy well-known Washington news-  
paper correspondents arrived late last  
night at the inside inn and will re-  
main three days on a sight-  
seeing outing. To-morrow a number  
of them will make an excursion to old  
and historic Jamestown Island, while  
others will visit Virginia Beach and  
Cape Henry. Most of the correspond-  
ents brought their families with them.

Norfolk Has Another Murder.  
[Special to The Times-Dispatch.]  
NORFOLK, VA., September 14.—It  
appears that another murder is to be  
added to Norfolk's already appalling  
list. Robert Holmes, colored, was last  
night shot in the head by another  
negro, whom the police allege is Wil-  
son Forester, and they now have him  
under lock and key.

SMALL LEAK IN LYNCHBURG'S  
SEWAGE PLANT PIPE LINE  
LYNCHBURG, VA., September 14.—A  
small leak developed to-day in the  
gravity water pipe line near the city,  
and the formal opening of the new sys-  
tem had to be deferred until next week.

## JAIL SENTENCE FOR MRS. WOOLRIDGE

Charged With Obtaining Money  
from Company Under False  
Pretenses.

### CLAIMED INJURY BY CAR

Alleged That She Got Black Eye  
in Fight and Not in  
Accident.

For about two hours yesterday  
morning Justice Crutchfield wrestled  
with the case of Mrs. Ida B. Wool-  
ridge, charged with obtaining money  
under false pretenses, and finally con-  
cluded the hearing by sending the  
woman to the House of Detention, where  
upon her attorney took an appeal to  
the Hustings Court. The charge, in  
brief, is that Mrs. Woolridge repre-  
sented herself to be injured in a  
street car accident, and obtained a  
compensation in money from the com-  
pany's claim agent, and that the com-  
pany later obtained evidence that she  
received her injuries in some other  
way, and was not entitled to dam-  
ages.

Early in August a car of the Pas-  
senger and Power Company left the  
track, the rear truck splitting on a  
switch. Two women were in the car  
in the same seat, Mrs. Warren, an  
employee of the Idlewood Company, and  
Mrs. Woolridge. Mrs. Warren was  
severely bruised, but on being in-  
terviewed by the claim agent agreed  
to accept \$75, which was paid. Officials  
of the company yesterday expressed  
their entire approval of this transac-  
tion.

Later Mrs. Woolridge also put in a  
claim, going to the office of the claim  
agent the following day and pointing  
to a blackened eye. She asserted that  
it had been hurt in the accident, and  
also spoke of other injuries. On the  
strength of this claim Mrs. Woolridge  
received \$10. Later it was alleged  
that Mrs. Woolridge obtained her black  
eye in a fight, and therefore the claim  
agent swore out the warrant charging  
her with obtaining money under false  
pretenses.

Captain Guilgon, of counsel for the  
company, said yesterday that the claim  
office has been much annoyed by small  
grat cases lately, people claiming  
damages for imaginary or semi-imag-  
inary injuries. The company, he de-  
clared, is determined to fight to the  
last such case as an object lesson.

## PLAYGROUND SEASON CLOSSES WITH BIG DAY FOR CHILDREN

The closing exercises at the chil-  
dren's playground, Nineteenth and Main  
Streets, proved a very pleasant ex-  
perience of yesterday afternoon,  
crowning the close of a most success-  
ful season in playground work.  
It was noised abroad Friday that ice  
cream and cake would be one of the  
attractions, and by 4:30 P. M. the  
mothers bringing the babies to the  
amuse and go-carts and other children  
of all sizes began to assemble until  
about one hundred and forty came in.  
The playground was somewhat tidied  
and the children were grouped to have

their pictures taken to their great  
satisfaction.  
Then they all filed into the dining-  
room of the Methodist Institute and  
received the cream and cake, Miss Sol-  
den, of the playground committee, and  
Mrs. N. B. Randolph being the pre-  
siding geniuses of a most happy occa-  
sion to the little people.

I was felt by those interested, who  
had come to the end of their summer  
labors that much good had been ac-  
complished. The attendance of the  
children throughout had been excel-  
lent. The improvement in manners  
and standards of neatness and behav-

ior, resulting from kindly supervision  
and the fact that the playground  
separation from the evils of the street  
and a place where little comrades  
might cultivate kindly feelings toward

one another, cannot be measured, as  
only the future can determine its  
extent.

The cake for yesterday afternoon's  
fete was donated by Mr. Edward  
Schmidt. Mr. Shepherd contributed  
largely toward the supply of ice  
cream.

Manager Huff, of the Virginia Pas-  
senger and Power Company, has given  
for the use of the playground chil-  
dren, two hundred tickets that will  
enable them to have the pleasure of  
a trolley ride next Tuesday afternoon  
at 3 o'clock.

The playground committee is mak-  
ing plans already for broadening and  
enlarging the scope of its work for  
next year. It is proposed to put  
work on such a basis that the chil-  
dren will not only be permitted the  
relaxation of play, but will be af-  
forded useful instruction to result in  
lasting and permanent benefit.

A Quick Trip.

day limit). Phone, 510. See Adv.

**Malaria**

TO break up Malaria by giving massive doses of  
quinine is merely substituting one disease for an-  
other, while calomel and other  
drastic drugs merely irritate the  
liver and bowels.

Combinations of arsenic, ergot,  
and iron falsely stimulate without  
producing any permanent bene-  
ficial effect; in fact, tend to compli-  
cate the disease.

Babek contains no quinine,  
arsenic, or deleterious drugs. The  
successful use of this preparation  
in the treatment of malarial dis-  
eases for over 25 years by thou-  
sands of sufferers proves it to be  
the most reliable remedy.

**BABEK**

Restored His Health.  
Gentlemen: I give my pleasure to recom-  
mend your Babek as a sure cure  
for Malaria. I suffered for several  
months with this distressing disease. I  
had very high fever, was nervous, had no  
appetite, and could not sleep. A friend  
told me of your Babek, and I have taken  
three bottles, and I feel completely restor-  
ed to health. I also consider your medicine  
a fine tonic for a rundown constitution.
